The diagram illustrates a 'New Board' form layout. At the top, the text 'New Board' is centered, with a red line extending from it to the label 'Header of page' on the right. Below this, there are two stacked rounded rectangular text boxes. The top box is labeled 'Board Name' and has a red line pointing to it from the label 'Text box to name the new board' on the right. The bottom box is labeled 'Description of Board' and has a red line pointing to it from the label 'Text box to add description of the board' on the left. Below these text boxes are two rounded rectangular buttons. The left button is labeled 'Create Board' and has a red line pointing to it from the label 'Button to Create the board' below it. The right button is labeled 'Cancel' and has a red line pointing to it from the label 'Button to cancel and return to Previous page' below it. In the top left corner, there is a red text label 'Whole page will be modal or its own page'.

The diagram illustrates the layout of an 'Edit Board' modal. At the top, the title 'Edit Board' is centered. Below it, the modal content is enclosed in a light gray rounded rectangle. Inside this rectangle, there are two text input fields: 'Board Name' at the top and 'Description of Board' below it. To the right of the 'Board Name' field is a red line pointing to the label 'Text box to edit the name of the board'. To the left of the 'Description of Board' field is a red line pointing to the label 'Text box to edit description of the board'. Below the text input fields, there are two buttons: 'Edit Board' on the left and 'Cancel' on the right. A red line points from the 'Edit Board' button to the label 'Button to Confirm the revisions', and another red line points from the 'Cancel' button to the label 'Button to cancel and return to Previous page'. At the very top left of the image, outside the modal, is the text 'Whole page will be modal or its own page' in red.
